It's Plug And Go So You Can Install It In A Day

Easy To Use: Just 1 - 2 - 3

Create Your Menu In Minutes With Our Menu Creator

Create many beautiful menus with our provided easy menu creator. We'll give you fantastic templates to use so you don't have to start from scratch. Just drag and drop images and video, type in your menu items and prices, and set your custom schedules. You'll be up and running in minutes.

Upload Your Menu Through Internet or USB

Once your menu is done, just send it to DigiMenu-Pro either over internet or by plugging in through USB. It's a quick process so you can update your menu anytime.

Plug In DigiMenu-Pro To Any Display Screen

Once you load in your new menu, DigiMenu-Pro is plug and go. You just plug it in with HDMI to any display screen, turn it on, and you are now fully operational. That's it. Seriously.

Manage Many Locations From **Anywhere**

You can update and manage your DigiMenu-Pro over the internet. This means you can add new content, promotions, and menu items at any time without a hassle. If you're running multiple locations, you can update all your menu boards at once. With DigiMenu-Pro, it is just as easy to manage a thousand menu boards as it is to manage one.

Design Your Unique Menu With Our **Bundled Software**

Just Choose A Template And Background Color

Fill In The Text Fields With Your Food Items And Prices

Drag & Drop Images And Videos Onto Your Menu

Set Schedules To Display Different Menus For Lunch, Dinner & Breakfast!

DigiMenu-Pro Specifications

At **SmartAVI**, we pride ourselves on the fact that we can take a powerful and sometimes complicated piece of technology and make it extremely streamlined and simple to use for the average user. DigiMenu-Pro is a small, sleek box that requires the very minimum amount of cords and connections to be set up and run. This lets you avoid having any ugly and awkward technology ruining the look of your restaurant.
